Hewlett Packard Enterprise

HPE delivers the world's most intelligent[1] storage for your hybrid cloud world

Is bringing unparalleled intelligence to storage to unlock the potential of your data with storage that is AI-driven, built for cloud, and delivered as-a-Service.

AI-Driven

Enables Autonomous IT and awareness around customers' environments and their data

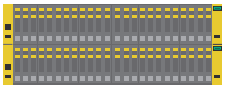

Built for Cloud

From the ground up to enable easy data mobility in their hybrid cloud world from on-premises to edge to cloud

Delivered as-a-Service

Delivers more flexibility to align your specific consumption and investment needs

Intelligent Storage

HPE 3PAR
Tier 1 performance/resiliency

HPE Nimble Storage
Effortless experience

HPE Apollo
Scale out performance

HPE StoreOnce & HPE Nimble Storage
Flexible data protection

Proven	Best	Ultra	Pioneering
for the most demanding	management and support	dense storage for large data sets	approach to secondary storage

Timeless architecture

All-flash and hybrid storage

Predictive all-flash storage from HPE is smart enough to eliminate issues before you even know they're there.

HPE 3PAR StoreServ

- Fast failover
- Multisite replication
- Zero RPO disaster recovery
- Persistent Ports (NPIV)
- Secure multitenancy with latency target QoS
- Active/Active architecture distinct
- Multitenancy/service provider
- Multi-app consolidation
- Synergy attach
- SAP HANA® at scale
- Unified block and file

HPE Nimble Storage

- 79% lower management OPEX
- Store More Guarantee on AFA + hybrid
- Simple integrated data management
- Nondisruptive scale and upgrades across models
- Integrated data protection
- 100% predictive Level 1 and 2 support Distinct Use Cases
- Multicloud flash fabric
- Very high performance and efficient hybrid
- Secondary storage target (with Veeam)
- VDI HPE Confidential

HPE SimpliVity

- Fast, simple, and efficient hyperconverged platform that combines IT infrastructure and advanced data services into a single, integrated all-flash solution at a fraction of the cost of traditional offerings.
